Re DNA Testing

Dear Tanya

Many thanks for your time and help when we spoke earlier.

As I mentioned, I was hoping to speak to Stephen about DNA testing at the CSA.

I have been given to understand that, to date, you have used the Laboratory of Government Chemists for all your DNA testing requirements but that this arrangement may come under review.

That being the case, I wanted to introduce ourselves, find out more about more about possible requirements at the CSA in order to gauge whether our extensive range DCA approved testing services might be relevant. There is a raft of supporting information about us, our services, accreditations and ownership structure etc on our web site at www.dnabioscience.com .

If you can find out who would be the best point of contact for me to speak to I would be extremely grateful.

Thanks once again for your help with this and I look forward to hearing back from you.

Kind regards (Redaction)
