Source: Employment Zones Evaluation Database

**Notes:**

- Percentage distribution excludes those who did not state whether they had a disability.
- From July 2001, Zone participants who had been unsuccessful in obtaining a job after 26 weeks of active job-search in the second step of the programme, were re-mandated to Zones after a further 13 week period of claiming JSA(IB). From July 2001, numbers of entrants are shown separately for those starting on an Employment Zone for the first time and those returning for a repeat spell. For example, total entrants for a particular quarter from Jul-Sep 2001 onwards are therefore the sum of first time entrants and returners for that quarter. i.e. The 8,260 entrants in Jul-Sep 2001 include 6,230 first time entrants and 2,030 returners.
- Because of rounding components will not necessarily sum to total.
